

Subroto Mukherjee

Fullstack/Headless Commerce Delivery Head

About Me

(+91) 9810239938
subroto.mukherjee@gmail.com
DOB: 08-May-1978
Marital Status: Married
<https://www.linkedin.com/in/subrotomukherjee/>

With a career spanning more than 2 decades, I come with a strong portfolio of project delivery for multiple esteemed clients including:

- Airbus
- Telefonica
- TD Bank
- Aditya Birla Fashion and Retail
- Tiffany Diamonds
- Marriott
- Taj Hotels

and many more...

I have vast knowledge and experience of handling project deliveries for various sectors such as - ECommerce, BFSI, Healthcare, Airlines, Hospitality and Enterprise applications.

Currently I am working with TechMahindra as their Fullstack and Headless Commerce Delivery head. I am responsible for all the deliveries for the Europe and Middle East (EMEA) region.

I have won multiple awards and recognition for my Leadership and Client Focused Delivery, which includes recognition from the CTO and CIO of the European Patent Office (Netherlands) and special appreciation from Intercontinental Hotel Group.

Skills

Solution Architecture	Pre-Sales	Google Cloud	Agile
SQL	Springboot	AWS	Micro-Service

React/React Native	Angular	AEM	Python
Contentful	Magento	Data Analysis	

Work Experience

TechMahindra (XDS) / Fullstack/Headless Commerce Delivery Head

MARCH 2020 - PRESENT, Gurgaon

I head the Technical Deliverables of the Fullhead and Headless Commerce deliveries for the Europe and Middle East (EMEA) region. My team consists of **200** technologists consisting of various levels of seniority. My major responsibilities include:

- Participating in Pre-Sales Activities and converting them to Business opportunities
- Delivery Planning and Execution
- Solution Architecture
- Client Communication
- Conducting Interviews
- Client Trainings

Presales:

- Omantel
- Telefonica
- FIFA
- Aditya Birla Fashion and Retail
- Olayan
- Glaxo
- Bank Of Ireland
- Ikano Bank

Projects:

- **Omantel:** Omantel is a marketplace just like Amazon, targeted for Oman. Future rollouts are in plan for other Middle Eastern geographies.

Tech Stack: Next.js, VTEX, Contentful (CMS), AWS Amplify, Cognito, AWS Services.

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **Neom:** Neom is an urban area planned by the Kingdom of Saudi Arabia, which is being scaled as the next tourist destination paralleling Dubai. The project involves building a mobile (native and mweb) and a web interface where a user can personalise their stay and make bookings at different events, hotels, attractions etc using one single interface.

Tech Stack: React, React Native, Next.js, Vfxairs, Springboot.

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **Bank of Ireland:** Bank Of Ireland wanted to digitise the Loan and Mortgage services for which we provided the complete End-to-End solution.

Tech Stack: Angular 13, Java Spring Boot 11, Microservices, AWS

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **Pantaloons:** Successfully Delivered the online retail website and mobile app. (<https://www.pantaloons.com>).

Tech Stack: React, Next.js, Fastify, React Native, AEM, PHP, AWS.

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **Aditya Birla SuperApp:** Successfully Delivered the multi-brand store for ABFRL (<https://aeo.abfrl.in/>).

Tech Stack: React, Next.js, Fastify, React Native, AEM, PHP, AWS.

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **Telefonica:** Solutioned and delivered Phone retail store for the European telecom giant Telecom and its subsidiaries.

Tech Stack: Vue.js, Micro-Frontend, Express.js, Redis, Springboot.

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

- **iChangi:** Built the iChangi experience for Changi Airport.

Tech Stack: AEM, React.js, React Native

Role and Responsibilities: Pre-Sales, Delivery Planning, Team Building, Solutioning, Sprint Planning, Client Handling.

Sopra Steria Ltd / Senior Architect/ Technical Product Owner
